At time of publication data was unavailable from Thailand and Uzbekistan.

Data from Serbia was delayed until after publication due to local difficulties.

Stud Books not operating at time of publication were Costa Rica and Guatemala.

Please note some of the data received was not complete at time of publication, and therefore some foal crop sizes look greatly reduced.

## Non-Thoroughbred Foal Production

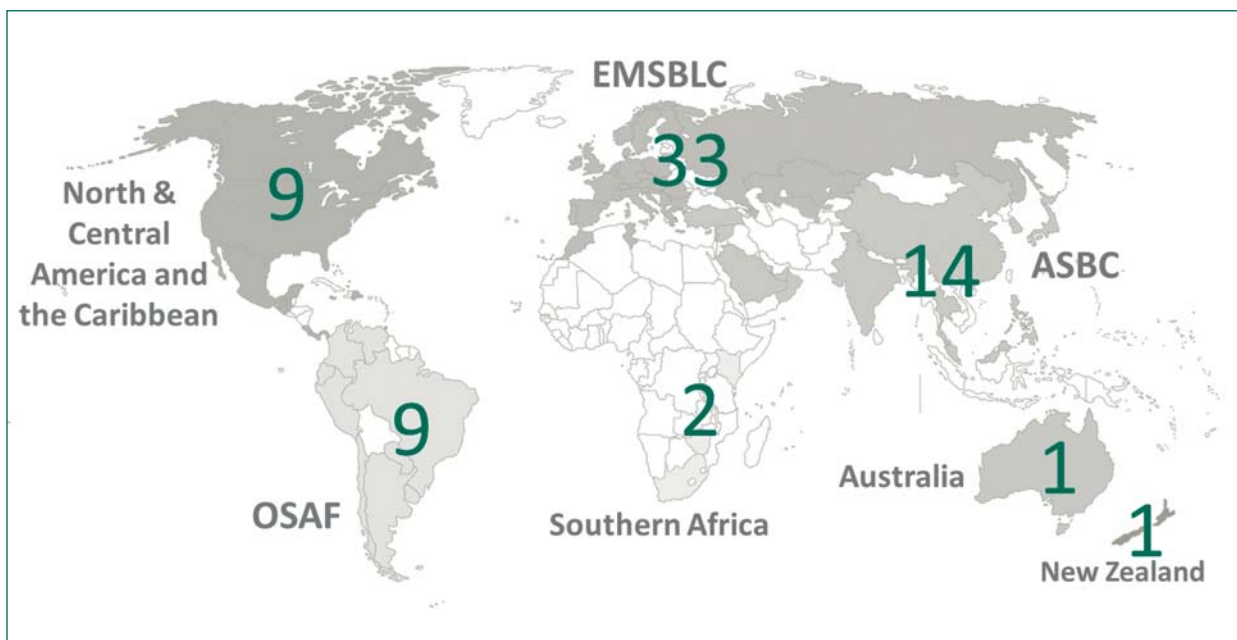

The following countries maintain a Non-Thoroughbred Register in which horses whose pedigree does not meet the requirements of a Thoroughbred, but which have been registered to the same standards as a Thoroughbred, can be recorded.
